Shine Ultra

CZUR Shine Ultra is a revolutionary book scanner that covers all your scanning needs! Featuring our patented "curve-flatten technology", auto-focus, auto page-turning detecting, it scans books even faster, with an incredible 1 second per page, so scanning an entire book will only take you minutes. Along with a lot more features, this is your perfect scanning companion. - Featuring a raft of cutting-edge technologies, CZUR Shine Ultra makes scanning a breeze.

CZUR Shine Ultra is extremely powerful, its portable size will amaze you. Weighing only 1 kg, and with its compact size, this is easily the most portable scanner on the market. Take it with you anywhere work takes you, - library, office, coffee shop, airport lounge, home, wherever!

With our patented Curve-Flatten Technology, it automatically removes curvature and saves you the time-consuming awkwardness of flattening pages by hand. Along with other features including Correct Position, Multi-target Scanning, Remove Fingerprint, Smart Paging, Purify Background and more, meet all your needs.
